Northwind Stationery — quarterly results, FY2025 (₹ thousand)

Quarter	Revenue	Cost of goods sold	Gross profit	Operating expenses	Net income
Q1	420	252	168	96	72
Q2	465	270	195	101	94
Q3	510	301	209	110	99
Q4	600	342	258	125	133
Total	1995	1165	830	432	398

Notes on the figures

Gross margin is gross profit divided by revenue, expressed as a percentage. For Q4 the gross margin was 258 ÷ 600 × 100 = 43%. Net margin is net income divided by revenue; for the full year it was 398 ÷ 1995 × 100 ≈ 19.9%. Cost of goods sold covers paper, ink and packaging bought for resale, but not rent or salaries, which sit in operating expenses.

Outlook

Management expects revenue to grow by about 12% in FY2026, mostly from school-season demand in June and July. A second warehouse in Pune is due to open in March, which should cut delivery times in western India from four days to two.

Risks

Paper prices rose 9% during the year and may rise again, which would squeeze the gross margin. A weaker rupee makes imported ink more expensive. The company also depends on three large school chains for almost a third of its sales.

Dividend

The board recommended a final dividend of ₹4 per share for FY2025, payable on 15 August to shareholders on the register on 1 August. Last year's dividend was ₹3 per share.

People

The company employed 86 people at the end of the year, up from 71 a year earlier. Most new hires work in the warehouse and in customer support.
